

SOCIAL DEMOCRATS OF AMERICA

The Problem

Too many groups are blinded by either ideology or money or both, which ends up controlling them and holds them back. The Overton Window is speaking to us now about needed social change, through reforms in the present. There is so much to do, yet there is no real movement that speaks to our needs presently to help influence political thinking in the form of politics that is genuinely antiwar, pro-green new deal, and offers a critique of capitalism.

How do we transform society through reforms in the direction of and favorable toward working class people and the middle class? Can we build a popular front of liberals, greens, self-described progressives, non-sectarian socialists and social democrats, working class conservatives and non-corporate moderates?

The Solution

We need a political caucus, BASED ON DEMOCRACY that can help kick-start a new movement for the 21st century. The idea is to form an organization which openly attracts individuals and others who can contribute their ideas to inform a movement greater than themselves, not based around strict ideology, dogma or money.

SOCIAL DEMOCRATS OF AMERICA is the idea. We would like to build this new caucus by forming an interim steering committee that helps establish officers and real by-laws to function democratically and which all can abide by and respect. We are a new caucus group within the

Democratic Party and are open to everyone. No one is turned down.
